PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience designing, building, and scaling enterprise web applications using React.js, Next.js, Node.js, Express.js, and MongoDB (MERN Stack). Proven track record spanning cloud infrastructure management, frontend performance optimization, and end-to-end platform ownership, including independently architecting an AI-powered workflow automation platform that replaced a paid third-party SaaS subscription and saved the company approximately \$10,000 annually. Currently leads and mentors a team of 4-6 engineers as Senior Developer, driving production releases, architecture decisions, and cross-functional delivery across QA, Product, and DevOps. Brings strong fintech domain expertise from infrastructure work on a regulated banking platform and ongoing development of an enterprise Sales CRM used company-wide.

TECHNICAL SKILLS

Full Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), REST API Design & Development

Frontend: React.js, Next.js, React-Redux, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Ant Design

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB (Aggregation Pipelines), DBMS Fundamentals

Cloud & DevOps: AWS (S3), CI/CD Pipeline Automation, Production Deployment Management, Git

Core CS & Practices: Data Structures & Algorithms, Object-Oriented Programming (OOP), Software Development Lifecycle (SDLC), Cross-Functional & Agile Collaboration, Team Leadership & Mentoring

AI-Assisted Development: Claude, GitHub Copilot, Codex (test writing, code structure, code management)

PROFESSIONAL EXPERIENCE

CenturyIQ Solutions

Jun 2024 - Present

Business Unit of Century Financial, UAE

Senior Developer

Apr 2026 - Present

- Lead full-stack development and delivery of enterprise applications using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**, managing a team of **4-6 engineers** to consistently meet project delivery timelines.
- Architected and independently delivered **Journey Builder**, a no-code workflow automation platform featuring **AI-powered prompt-to-journey creation**, eliminating manual script-based email outreach and fully replacing a paid **Salesforce** subscription in-house - saving approximately **\$10,000 annually** in licensing costs.
- Mentor engineers through technical hiring interviews, individual goal-setting sessions, and code quality reviews, presenting team performance and roadmaps directly to **senior management**.
- Drive cross-functional collaboration with **QA, Product, and DevOps** teams to ship production releases and maintain application reliability.
- Own architecture decisions, code quality standards, and best practices across the full-stack engineering codebase.

Full Stack Developer

Jun 2024 - Mar 2026

- Developed and maintained **uPro**, a company-wide enterprise business management platform (**Sales CRM, HRMS, LMS**, and employee rewards modules), using **React.js, Node.js, Express.js, and MongoDB** - used daily across all departments, with the Sales CRM as the primary use case.
- Reduced application load time by **25%** through frontend/backend optimization and refactoring of core UI components.
- Integrated third-party services including **Microsoft Graph, WhatsApp, AWS S3**, and digital signature platforms to extend cross-departmental functionality.
- Designed and optimized complex **MongoDB aggregation pipelines**, improving query performance for a business-critical, multi-department application.
- Automated **CI/CD** deployment pipelines, ensuring reliable, zero-downtime production releases.

Neosoft - Software Engineer

Feb 2024 - Apr 2024

- Led the migration of Gokhana's frontend from **React.js** to **Next.js**, improving overall application performance by **20%** through optimized routing and server-side rendering.
- Built order-management pages using **Material UI** and **Redux**, improving UX metrics by **15%** and reducing page load time by **10%**.
- Refactored core codebase architecture, increasing application response times by **30%**.
- Integrated backend services with **Node.js** and improved database queries, increasing operational efficiency by **20%** and enhancing system scalability.

Infosys - System Engineer

Jun 2021 - Jan 2024

- Managed **AWS** cloud infrastructure for a regulated banking client (Citizens Bank), maintaining **99% uptime** across production systems.
- Reduced team downtime by **25%** and improved overall productivity by **15%** through proactive cross-platform troubleshooting and issue resolution.
- Optimized application version deployments and release processes, achieving **zero system failures** and a **30% reduction** in deployment time.

PROJECTS

uPro - Enterprise Business Management Platform (CenturyIQ Solutions)

Jun 2024 - Present

- Company-wide platform unifying **Sales CRM**, **Marketing Automation**, **HRMS**, an **LMS** (Century Campus), and an employee rewards module (Century Coins); used daily across all departments, with the Sales CRM as the primary use case.
- Built scalable frontend/backend features (**React.js**, **Node.js**, **Express.js**, **MongoDB**) and integrated **Microsoft Graph**, **WhatsApp**, **AWS S3**, and digital signature platforms.
- Developed **REST APIs** and optimized complex **MongoDB aggregation pipelines** to improve performance for a business-critical application.

Journey Builder - AI-Powered Workflow Automation Platform (CenturyIQ Solutions)

2026

- Sole architect and developer of a no-code workflow automation platform integrating with **uPro CRM** to automate onboarding, follow-ups, and lead nurturing via configurable rules and event-driven triggers.
- Built the drag-and-drop workflow engine, scheduling mechanisms, and **Email/WhatsApp/SMS** communication integrations from scratch, owning the complete **SDLC** through production deployment.
- Integrated **AI-powered prompt-to-journey generation**, enabling business users to create fully configured automation journeys directly from natural language prompts - reducing manual workflow-building time.
- Eliminated manual, script-based email outreach and fully replaced a paid **Salesforce** subscription in-house - saving approximately **\$10,000 annually** in licensing costs.

Threads - Full-Stack Social Platform (Personal)

Sep 2023 - Oct 2023

- Developed a full-stack social platform using **Next.js** (SSR) and **MongoDB**, integrating **Shadcn UI**, **Zod** validation, and **UploadThing** for real-time events.
- Achieved **30% faster response times**, a **20% increase** in user engagement, a **15% reduction** in bounce rate, and **99.9% uptime** for 50+ users.

EDUCATION

Bachelor of Technology in Computer Science

2017 - 2021

Mumbai University, Maharashtra, India - CGPA: 9.1 / 10

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming

AWARDS & RECOGNITION

- Century Stalwarts Award - 2024 & 2025
- Quarterly Award - Q4 2024 and Q3 2025
